

State Insurance Departments Contact Information

Thanks for downloading this handy list of state insurance departments. It is important to know that if you believe that your insurance company is not treating you fairly or if you believe them to be acting in bad faith; you do have somewhere to turn!

At MrInsurability we pride ourselves on putting the client first, not the company, so we feel obligated to remind you that this is only a list of names and numbers and comes with no additional help or advice.

Before you contact anyone, you should keep in mind that your state's dept of insurance may not agree with what you think to be true and side with the insurance company, leaving you out of luck. This has happened on numerous occasions in the past.

Many have found that the family attorney was able to get things resolved much more quickly and easily, with the desired result. No matter how you decide to proceed, should an issue ever arise, you can be sure that your state dept of insurance will launch an investigation and make a ruling.
